CEPRET

Attachment A

Explanatory Notes

- I. TAB 2 contains a generic summary of space requirements incident to the housing of personnel, laboratory equipment, and maintenance facilities under the jurisdiction of the Deputy Director (Research).
- 2. TAB I establishes space requirements and justification pertaining thereto for each major component of the DD/R together with a recommended occupancy plan. The plan was developed on the assumption that space soon to be vacated by OBI would be made available to the DD/R.
- 3. TAB 4 sets forth present space holdings of the DD/R which will be turned back to the Office of Logistics, previded that, the occupancy plan recommended in this memorandem is approved or the comparable space is provided elsewhere in the building.
- 4. TAB 5 provides justification for 1, 765 square feet of additional space, over and above that requested in our original estimates (see DD/R #508-62).
